

## Renewables & Energy

Red7Marine offer vessels that are suited to operations and maintenance work in the renewables and energy sectors and operates in accordance with recognised industry standards.

## Marine Construction

Red7Marine's in-house approach offers a complete package of consultancy, equipment and highly skilled project teams to all clients working over water.

## Marine Recruitment

As the Marine Partner of Choice Red7Marine is committed to identifying, training and providing the very best personnel within the industry for both on-site and office based roles.

## Marine Access Solutions

From jack up, stabilised and flat top barges, to modular pontoons and equipment, Red7Marine's modern and fully maintained fleet offer a range of safe marine access solutions.

## Marine Consultancy

Years of experience, coupled with an innovative fleet of marine plant and a culture of safety and respect, means that Red7Marine is expertly positioned to offer exceptional marine construction consultancy.
